Accommodation Finder

What's the project about?

Accommodation finder is the web application which helps people to find accommodation among people in Practo. It is a platform where people can post vacancies in their flat or any other houses they have idea of.

The application contains the below stated <u>functionalities</u>:

∼ MUST DO

- Post room availability or house availability.(location, cost,photos)
- edit the availability
- delete the availability added
- List of available rooms or houses.
- Search for rooms based on filters.
- Contact the poster or the owner directly
- Login using google.

∼ OPTIONAL

- Option of showing the houses on a map or list.
- Integrating with slack channel.
- Request for Booking and the person posted accepts it.
- Mark some houses or

Why this project ?

This application helps people who are relocating to Bangalore and want to share houses among the Practeons.
